

Invitation

to our Early Medicines Development Community

Free webinar on 28 January 2021 ♦ 16:00-17:45 CET

Phase 1 Vaccine Studies in the Times of Covid-19...

COVID has highlighted the importance of Phase 1 trials with vaccines. And yet, only a handful of sponsors, Phase 1 sites and investigators have a thorough understanding of the science, methodology, ethics and logistics required to run such trials. Our New Years EUFEMED webinar will provide you with cutting-edge insight into newest developments around such trials while also learning about the experience of others and providing an opportunity to discuss recommendations.

from 15:40	dial-in
Moderator:	<i>Jan de Hoon</i> <i>Center for Clinical Pharmacology, KU Leuven, Belgium</i>
16:00	Welcome and Introduction
16:10	An overview of current vaccine platforms and the development of a new vaccine against SARS-CoV-2 <i>Johan Neyts, Rega Institute, KU Leuven, Belgium</i> Q&A
16:40	The challenges of setting up a Phase 1 vaccine trial during the Corona pandemic: The sponsor's point of view <i>Hanneke Schuitemaker, Janssen Vaccines & Prevention B.V., Leiden, The Netherlands</i> Q&A
17:10	The challenges of conducting a Phase 1 vaccine trial during the Corona pandemic: The investigator's point of view <i>Wouter Botermans, Center for Clinical Pharmacology, KU Leuven, Belgium</i> Q&A
